

So Cal Research Initiative for Solar Energy

Bourns College of Engineering

Significant advances are led by those with vision to see beyond the horizon.

SC-RISE Founding Members partner with the University of California, Riverside and lead the effort to develop new solar technologies. All Founding Members are recognized in SC-RISE publications, web sites and other communications. In addition to the benefits listed in the prospectus, Founding Members have a seat on the Advisory Council and receive the following benefits based on their membership level:

PLATINUM - \$50,000

- o A named graduate fellowship in solar energy
o Direct access to the Center's Director
o Company Day at Bourns College of Engineering
o Opportunity to participate in the undergraduate senior project program, plus:

SILVER - \$10,000

- o Access to the latest academic research developments
o Specialized consulting and testing services
o Annual seminar for faculty, postdocs and students
o Opportunities to collaborate on research and education contracts and grants, plus:

GOLD - \$25,000

- o Facilitated opportunities for your employees to gain experience in research labs
o Department researchers' participation on your Technical Advisory Committees
o Advance knowledge of emerging technologies
o Informational meetings between your staff and our faculty, plus:

BRONZE - \$5,000

- o Ability to connect with other departments and centers as an affiliate
o Facilitated access to faculty, senior administrators, researchers and staff
o Invitations to annual meetings
o Opportunities for your employees' education and training
o Speaking opportunities on campus

Yes! We want to be a Founding Member of SC-RISE!

- o Please contact me about arranging a free informational meeting and tour
o Platinum \$50,000 o Gold \$25,000 o Silver \$10,000 o Bronze \$5,000
